OVER \$30,000 IN LAWRENCE COUNTY

SALE OF LIBERTY BONDS WILL CLOSE FRIDAY MORNING (TO-DAY.)

From the reports in the hands of the county chairman, Lawrence county has bought \$30,000 worth of Liberty Bonds, and there are some other purchases not included that should be credited to this county. The C. & O. employees all along the road, including section men, agents, operators, etc., have bought bonds through the C. & O., on an arrangement for small monthly payments. It is said only three employees failed to buy between Catlettsburg and Prestonsburg.

The largest individual subscriber in Lawrence county was Mayor R. L. Vinson, of Louisa, who bought \$5000 worth. The next was Dr. C. B. Hite, of Hite, who is reported to have bought \$4000. Outside of the banks there are the largest purchases. There are a considerable number of small purchasers, of whom we may publish a list if we can get it complete later on.

It is almost certain that the immense and almost incomprehensible dollars has been largely over-subscribed, as it should have been. It will be had news for the merchants, farmers and cheering tidings for bleeding France, Belgium, England and the other allies.

CRITES-BOWEN.

On Tuesday at high noon at the home of the bride's parents, Rev. and Mrs. J. W. Crites, in Huntington, West Va., Miss Ruth Crites and Mr. Garland Bowen were married. The bride is a beautiful young lady and was graduated from the High School in Huntington this year. Mr. Bowen is a popular young man of Huntington.

The ceremony was performed in the living room where an altar of roses and ferns had been formed. The impressive ring service was read by the father of the bride. The bride was crowned in her graduating dress of sheer white organza, and carried a shower bouquet of white roses.

Mr. Bowen is connected with the Chesapeake & Ohio Railroad company. Following a wedding breakfast the bride and the groom left over the Chesapeake & Ohio for Cincinnati, Cleveland and Columbus, where they will spend a short time after which they will be at home to their friends at 924 Twelfth-av., Huntington.

FINISH EVERY DAY'S WORK.

Cleaning up the slate every day is the secret of making work easy. To-day's tasks are not too much for anybody; but when to them are added the neglected duties of yesterday and the forgotten piece of work which should have been done the day before, the burden becomes too heavy to be borne. Finish the work of to-day to-day. Go to sleep with the satisfaction that comes from achievement, and wake with the buoyant spirits which are the result of starting with a clean slate.

G. W. GUNNELL PASSES AWAY AT CATLETTSBURG

BODY BROUGHT TO LOUISA AND BURIED IN PINE HILL CEMETERY.

Mr. George W. Gunnell, Sr., died at his home in Catlettsburg last Sunday morning, after an illness of nearly two years. Cancer is said to have been the cause of his death. It was only recently known what the real trouble was.

The body was brought to Louisa Tuesday morning and interred in Pine Hill cemetery, where rest the forms of Mrs. Gunnell's parents. Rev. Hampton, Episcopal minister from Ironton accompanied the remains and conducted the funeral services. Mr. Gunnell was a member of the Episcopal church. Others who came with the widow and only son, George Junior, were the latter's wife, Miss Amanda Yates, Frank Carpenter, Mr. and Mrs. Chas. Carpenter and son.

Ernest Moore, L. J. Frazier, J. P. Crishton, Green Ross, J. D. Challaugh, W. H. Evans, Fred Keller and J. J. Montague. Mr. Gunnell was a native of Fairfax-co., Va. He came to Louisa with a firm of contractors in 1883. Two years later he married Miss Elizabeth, daughter of Dr. S. J. Yates. Soon afterward he embarked in the merchandising business and in a few years became the leading merchant of Louisa and one of the most prominent business men here. He was a man of unusual business qualifications. In 1904 he moved to Catlettsburg, where he soon took the lead in business affairs. He became president of the strongest bank, built a large business block, and then established a successful wholesale shoe house. After his health was impaired the management of the shoe business fell largely upon the shoulders of his son who has proved his ability and worth by carrying along successfully his father's work.

Three sisters, who live in Washington, D. C., sons of Mr. Gunnell, he was 59 years old last April. During his long residence in Eastern Kentucky he made many friends, being of a genial, bright and amiable nature. Quite a number of Louisa people went to Pine Hill Tuesday morning and witnessed the last rites.

ROBERT FRASURE CASE IS REVERSED

FOR SECOND TIME THE APPELLATE COURT RULES LATER INCOMPETENT.

The Court of Appeals has again reversed the case against Robert Frasure, sentenced to the penitentiary for life in the Lawrence Circuit Court at the last term. This was the fourth trial of the case, resulting in two life sentences and two "hung" juries. He is charged with killing his niece, Miss Stella Kinney, on the road near Olive Hill. Our readers are familiar with the case. Frasure served a few months in the penitentiary after his former conviction and was permitted to give bond when the Court of Appeals reversed the case.

The reversal was made on account of testimony admitted about a letter alleged to have been written by Frasure to a physician in Floyd-co. The case will go over until the October term.

WILL LOCATE IN TEXAS.

Dr. Benj. H. Vaughan and wife are visiting the former's parents, Mr. and Mrs. C. N. Vaughan, of Russell. Dr. Vaughan was graduated from the Chicago College of Medicine and Surgery, of Chicago, Ill., May 31. Dr. Vaughan will go to New York July 1 and specialize in eye, ear, nose and throat, and then locate with his brother Dr. E. W. Vaughan at Port Arthur, Texas.

Mrs. Vaughan is the daughter of M. M. Walter, of Blaine.

KILLED BY TRAIN.

Rev. Melvin E. Brown, a preacher of the M. E. Church, South, was struck by the Big Sandy train, in Ashland, Tuesday morning, and so badly injured that he died soon after being taken to a hospital. His death was due to a fractured skull.

Rev. Brown was well known through Boyd and Greenup counties, and attended the district conference of his church in Ashland last week. He was 70 years of age and was never married.

NEVER TOO OLD TO LEARN.

Mr. Samples served in the confederate army in the Civil war, and has a record of fifty years as a teacher in the West Virginia schools, in which he has taught seventy-eight terms. He expects to begin next September on his second fifty years of teaching.

HUDSON WAS SUNK BY A SUBMARINE.

Veterans of Co. L, who went to Porto Rico in 1898 will be interested in knowing that one of the ships recently sunk by a German submarine was the ship on which they were transported, the Hudson, the name of which has been changed. The ship was built in 1874.

DISTRIBUTES DOZEN PIGS.

County Agent K. L. Varny received and distributed a dozen pure-bred Duroc pigs at Pikeville a few days ago. After examining them for cholera, he turned them over to the boys, with instructions for raising them. The demand was greater than the supply.

SHOOTING AFFRAY NEAR WEBBVILLE

WHISKEY CAUSES THE USUAL TROUBLE AT A RELIGIOUS GATHERING.

Following a drunken disturbance at a church near Webbville, this county, last Sunday Charles Robinson shot and probably fatally wounded Wm. H. Evans. The ball took effect in the left side. Evans is in a hospital at Ashland and reports say his recovery is not expected.

The trouble was the result of liquor. Several young men were present in a drunken condition and the details of the affray are unimportant, because it is the same old story.

We are ashamed to publish to the world the fact that in several neighborhoods in Lawrence-co., there are young toughs who make it a point to procure liquor and go to all church gatherings for the deliberate purpose of disturbing the meetings and showing the public how tough they are. It is a disgrace to our county and a reflection upon the many good people of these localities. They can break up this sort of thing if they will make indictments in every instance and prosecute these outlaws to the limit. Judge Cisco has been instructing the grand jury very rigorously on this offense and the offenders will get no leniency at his hands. Prosecutor Waugh is also especially interested in wiping out this crime and will prosecute them to the limit. It is an outrage upon civilization to permit this sort of thing to continue. Judge Cisco at this term instructed the grand jury to indict every fellow at a religious gathering with the smell of liquor upon his breath. That is right. Nobody but a toughneck and outlaw takes a drink of liquor when going to a religious gathering and the fact that he does it should be sufficient reason for keeping him away. If the time comes when such a man is actuated by proper motives he will go to church without liquor in his system.

CANTONMENT SITES FOR ARMY.

Louisville, Ky., Little Rock, Ark., Battle Creek, Mich., and San Antonio, Tex., have been approved by the War Department as additional cantonment sites for the new army.

Additional camps for National Guard mobilization will be located at Fort Worth, Waco and Houston, Texas; Fort Sill, Okla.; Deming, New Mexico, and Linda Vista, Cal.

Now that Louisville has secured the cantonment, the Kentucky Indians troops of the national army. It means that the War Department will expect to have the camp about Louisville made ready for occupancy by the first men drafted about September 1.

It means also, that a large force of men will at once be put to work clearing off the site for the erection of structures to house the soldiers.

The government will spend about \$5,000,000 putting the camp into shape for use.

Death of the Jailer's Mother

Mrs. Martha Wells died at Weston, Ohio, Monday, of the flu. She was the daughter of Mrs. B. W. Johnson, with whom she had made her home for quite a while. The body was brought here Tuesday, over the N. & W., to the home of her son, Noah Wells, jailer of Lawrence-co. On Wednesday the body was taken to the old home on upper Blaine and interment took place at ten-thirty o'clock in the Jason Hogg's graveyard.

The funeral services were conducted by the Rev. Jack Johnson, of Elliott-co., a minister of the United Baptist church, of which Mrs. Wells had long been a consistent member.

The body was accompanied to Louisa by Mr. and Mrs. B. W. Johnson and Mrs. Thurman Johnson, of Weston, the latter being the youngest daughter of Mrs. Wells. Noah Wells joined them and made the trip to the burial place.

The deceased was the wife of Wm. Wells, who died several years ago. Her age was 75. Her death was the result of an attack of la grippe. She was the mother of seven children, five of whom are living.

COMMENCEMENT AT THE K. N. C.

EXERCISES OF UNUSUAL MERIT AND INTEREST WITNESSED BY PUBLIC.

We think it is not making the statement too strong when we say that for excellence and genuine merit all the way through, the commencement exercises of Kentucky Normal College and the Louisa High School have never been surpassed. Rev. W. H. Foglesong, of the M. E. Church South, preached the benediction sermon at the college auditorium to a large audience on Sunday night. All the pastors and congregations of the town were present. The other ministers assisted in the services.

The preacher delivered a very forceful and appropriate sermon. The choir was made up of members from the various churches, with Mrs. G. R. Vignos as pianist, and Prof. W. C. Hunter directing. The music was excellent and the audience evidently enjoyed it.

On Monday night the program was carried out as printed above, without a break, or a large error, or anything to mar the enjoyment of the occasion. We shall not attempt to describe the affair in detail, but will say that each and every participant is entitled to specific mention. More than ordinary credit is due to each, and we regret that circumstances prevent us from doing full justice to the affair.

The stage was tastefully and patriotically decorated. It will be noticed that the subjects of the orations were easily linked with the present great crisis of the world, and they were thus treated. This fact gave the subject matter of the orations unusual interest. Just preceding each oration Prof. Kennison placed upon a rack at the front of the stage the flag of the country represented by the speaker.

An interesting fact which we will mention here is that John B. Horton, whose subject was "Our Country," recently enlisted in the army and was permitted to return here from Fort Thomas for the graduation exercises.

The music, under Prof. W. C. Hunter, was very fine and many compliments are heard about the various numbers. Applause was most heartily and liberally bestowed by the audience all the way through both the oratorical and the musical program.

The diplomas were presented by Rev. A. C. Bostwick, of the M. E. Church, who used the letters of the word "diploma" as an unique index to an interesting talk with each presentation. Rev. W. A. Gaugh closed the program with a benediction.

\$50,000 Bonds for Mayo Estate

Upon the suggestion and request of Mrs. S. F. Fetter, the directors of the Mrs. Jno. C. Mayo corporation voted unanimously at a meeting last Monday to purchase \$50,000 worth of Liberty Bonds. She said she regarded it as a duty the estate owes to the United States government.

This is the largest single purchase made in Eastern Kentucky, and one of a very few as large in the State.

MAYOR OF BLUEFIELD SHOT.
Bluefield, W. Va., June 13.—E. E. Carter, mayor of the city of Bluefield, president of the Union Bank & Trust company, prominent coal operator and capitalist, was shot in the abdomen to-night, and perhaps fatally wounded, while in the apartments of a woman named Mildred Young. It is said.

The shooting occurred late tonight, and the affair is shrouded in mystery. The young woman and her daughter Bessie Young, aged 18, are being held in the Mercer county jail without bond.

LAW STUDENT MAKES SPLENDID GRADE.

Jasper H. Prece, of Martin-co., admitted to an examination for admission to the bar on the first day of the present term of the Lawrence Circuit Court. The examiners who assisted Judge A. N. Cley were Judge T. S. Thompson and Joe Sweetman. He was thoroughly examined on all the subjects required by statute and came through the ordeal with a general average of 95 per cent.

Mr. Prece has studied law under Judge James M. Finlay for the past two years and will be the first to receive the degree of L. L. B. from Martin College of Law (a department of Kentucky Normal College) of which Judge Finlay is dean.

Prospects are bright for a large class in January, 1918.

FOR SAFE KEEPING.

Ben Riley Melton, Monroe Melton and Thomas Brewer, alleged participants in a fight that occurred a short time ago on Big creek, in Leslie-co., in which Roscoe Brewer and John Feltner, a brother of Mose Feltner, were shot to death, were lodged in jail in Lexington. Melton, who was wounded in the fight, still carries bandages as a result of a bullet which tore through his right cheek and passed out under his left eye.

CIRCUIT COURT IS OF SHORT METER

JUSTICE YIELDS TO THE DEMANDS OF THE BUSY FARMERS.

The Lawrence Circuit Court convened Monday and the juries were empaneled. Judge Cisco instructed the grand jury in very strong and specific language and put them to work at once.

A general sentiment was present to adjourn court as soon as possible and let the juries and witnesses get back to their farm work. In answer to this the petit jury was held only three days, working on misdemeanor cases. The judge is now hearing some cases and will continue through this week, when court will probably adjourn for the term. Mr. Waugh left Wednesday.

Bull in the sum of \$20,000 was allowed Robert Frasure and he left Thursday for his home in Fleming-co.

Ed. Caporin was fined \$300 and given a jail sentence of 60 days for striking Jailer Wells and thus enabling his brother Milt to escape.

\$10,000 Real Estate Deal

Philip Prece has purchased a large tract of land about eight miles south-east of Louisa, known as the Meyer Schamburg tract. The tract contains over 600 acres, fronting on the railroad a distance of a mile and a half. It has a very considerable amount of timber on it, and this will be removed and marketed by Mr. Prece in the near future. The land also carries good coal. The price paid was \$10,000.

Mr. Schamburg is remembered by many Louisa people who were here twenty-five or thirty years ago. He now lives in Philadelphia. T. S. Thompson has looked after the tract of land here for many years and negotiated the sale.

CHANCE OF CALL AND DEATH.

"Afraid to enroll, a young man commits suicide." The chance that a given young man will be called to the colors is 10 to 1 if there is a second call, or 20 to 1 if there is on call. The chance that a given man will survive the hottest battle is said to be 3 to 1. The chance that a given man will become engaged in a battle, in these days of large armies, and the use of troops for many purposes other than battle, is perhaps 1 to 10. When a man whose risk of being killed in battle is so slight, kills himself to avoid that risk a verdict of "violent insanity" is in order.

THE NEW CHURCH.

The windows for the new church have arrived and the contractors will begin to install them next Monday. A small part of the finishing lumber has arrived and more is expected very soon. The cornice work is being put in place.

AGED COLORED WOMAN DEAD.

"Aunt" Mary Harris, an aged colored woman of this place, died at her home last Monday. The funeral was held Tuesday and burial took place near Ft. Gay. She was between 85 and 90 years of age, and was one of the good old type so often seen in former years.

PRESTONSBURG GIRL WAS MURDER VICTIM

BODY FOUND IN OHIO RIVER IDENTIFIED BY MOTHER OF GIRL.

Ironton, June 7.—The body of the girl found near Hanging Rock is that of Lulu Viers, of Auxier, near Prestonsburg, Ky. The clothing was identified by her mother, Mrs. Lottie Viers, widow of Morgan Viers. She and Lottie Frazier, niece of Mrs. Viers, came to Ironton to-day and brought samples of blue cloth with which Mrs. Viers had made a dress for her daughter before her disappearance. They were also accompanied here by Chief of Police James Sizemore, of Prestonsburg.

The mother said that her daughter would have been nineteen years of age on next February 23d, that she kept company with John Coyer, aged 22, who was employed in the mountains in Kentucky as a coal miner; when Miss Viers was 16 years of age she gave birth to a child and fixed the paternity charge on Coyer. He refused to right the wrong he was alleged to have done her and the case was carried to the court where it has been in progress of litigation for the past two and one-half years.

On December 9th, last, Coyer, it is said, called at the girl's home and induced her to accompany him to a point up the Big Sandy river, claiming that they were going to Elkhorn City to be married. December 9th was on Saturday. On the following Wednesday Coyer returned and, the mother says, visited the home of the girl whom he had lured away. Her mother, says, she asked him where her daughter was and he said he did not know.

Coyer enlisted in Company C, of a Kentucky Infantry regiment, now located at Louisville, Ky.

On last August, prior to the disappearance of the girl, her father, Morgan Viers, died in a hospital at Ironton, death being due to poison said to have been given him in a bottle of liquor.

The shoes worn by the dead girl were purchased from William Powers, of Auxier, Ky.

Coyer was arrested at Louisville and is in jail at Catlettsburg. He will be tried in the Greenup Circuit Court.

Another Arrest in the Case.

Portsmouth, Ohio, June 12.—Miss Hazel McKenzie was arrested here to-day by Sheriff Mullins, of Pikeville, Ky., charged with complicity in the murder of 19-year-old Lulu Viers, of Floyd-co., Ky., whose body was found, weighted down with an iron chain, in the Ohio river at Ironton last Tuesday.

According to Sheriff Mullins, Coyer and Miss McKenzie are warm friends. The Sheriff says Coyer was indicted by the Floyd County Grand Jury on a charge preferred by the Viers girl and that a few days before the case was to be heard Coyer, Miss McKenzie and Miss Viers disappeared.

Miss McKenzie refused to make a statement when she was taken to Prestonsburg for a preliminary hearing.

DEATH COMES TO MR. DOC VINSON

NATIVE OF LOUISA AND PROMINENT CITIZEN OF CATLETTSBURG.

Mr. Doc Vinson, of Catlettsburg, died at Harrodsburg Wednesday, following a paralytic stroke about a month ago. This attack came upon him at his home in Catlettsburg, but in a few days he became able to go to the home of his only daughter, Mrs. Annie Allen, at Harrodsburg. His condition grew worse and the end came on the 13th. The body will be laid to rest by the side of his wife's remains at Catlettsburg.

Mr. Vinson was 71 years old. He was a son of Col. Wm. Vinson and was born at the old homestead on the "Point" opposite Louisa. He lived here through his early manhood and then moved to Catlettsburg. His wife was a sister of Dr. A. W. Bromley and Sam Bromley, of Louisa. She died several years ago. Besides his daughter he leaves one son, John B. Vinson. K. F. Vinson and Mrs. Zura Hutchinson, of Louisa, and Mrs. Tennie Hutchison, of Cincinnati, are the only surviving brother and sisters of the deceased. He has many other relatives here and a host of friends. A more genial and generous man could not be found than Doc Vinson. He was liked by everybody. He once represented Lawrence and Boyd counties in the Legislature, which was the only office he ever asked for. He was a man of more than ordinary intelligence and enjoyed the confidence and respect of his fellow citizens.

Among those from Louisa who will attend the burial are K. F. Vinson, Mrs. Zura Johnson, G. R. Vinson, Mayor R. L. Vinson, Jas. Vinson, and L. N. Vinson, of Glenhays. The funeral will be held at eleven o'clock on Friday.

THAT'S GRATITUDE.

Gratitude is knowing how to pay kindness in more than one way. A hungry and cold wanderer of the road was fed and warmed in a minister's kitchen. When he rose to go, he said: "Parson, I can't give you any money, but I know how to fix your meter so it won't register."

\$50,000 Owners' Contest to Follow Maxwell's Economy Triumph of May 23rd

Hundreds of Maxwells on May 23rd made good our claim that a Maxwell will go further on a gallon of gasoline than any other 5-passenger car—now, from June 16th to 30th, we expect 40,000 Maxwells to make as good or a better showing than was made on historic May 23rd

May 23d was Maxwell Gasoline Economy Contest Day all over the United States and Canada.

Fifty Maxwell cars went a total of 1,933.6 miles on a total of 50 gallons of gasoline.

The average gallon mileage of those cars was 39.67. And these were privately owned Maxwells—in actual daily use.

Those 892 cars averaged 27.47 miles per gallon of gasoline. More wonderful records are being received daily.

We could rest our laurels on this great triumph—but we don't intend to do that.

NEWS OF THE WORLD

FRIDAY.

English forces have dealt a mighty blow against the German line in Belgium and have been rewarded with notable gains in territory and the capture of more than 5,000 prisoners and numerous guns of various caliber. In addition they inflicted heavy casualties on the Germans.

Over a front of more than nine miles extending from the region of the Ypres southward nearly to Arras, the British started their drive in the early hours of Thursday morning and at nightfall had everywhere advanced their line, capturing villages and numerous points of vantage, among the latter the Messines-Wytschete ridge, which commands the surrounding plains for miles and which for two and a half years has been a troublesome salient. The villages of Messines and Wytschete fell into the hands of British during the attack, and in a second drive they occupied the village of Oostverne, and trenches east of the village on a front of more than five miles.

Louisville yesterday gave \$1103,650

to the purchase of Liberty Loan bonds. At a stirring meeting at the Armory last night speeches indicated that rich and poor alike answered the call for money. Details of the work of the Liberty Loan Legion, who began the drive yesterday, were related together with the prediction that the allotment for Louisville will go far above the \$500,000 mark.

TERRIBLY SWOLLEN

Suffering Described As Torture
Relieved by Black-Draught.

Rossville, Ga.—Mrs. Kate Lee Able, of this place, writes: "My husband is an engineer, and once while lifting, he injured himself with a piece of heavy machinery, across the abdomen. He was so sore he could not bear to press on himself at all, on chest or abdomen. He weighed 165 lbs., and fell ill until he weighed 180 lbs., in two weeks.

He became constipated and it looked like he would die. We had three different doctors, yet with all their medicine, his bowels failed to act. He would turn up a ten-cent bottle of castor oil, and drink it two or three days in succession. He did this yet without result. We became desperate, he suffered so. He was swollen terribly. He told me his suffering could only be described as torture.

I sent and bought Thedford's Black-Draught. I made him take a big dose, and when it began to act he fainted, he was in such misery, but he got relief and began to mend at once. He got well, and we both feel he owes his life to Thedford's Black-Draught."

Thedford's Black-Draught will help you to keep fit, ready for the day's work.

Cincinnati man tells how to shrivel up
corns or callouses so they
lift off with fingers.

Ouch! ! 2 ! ! This kind of rough talk will be heard less here in town, if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezeone when applied to a tender, aching corn or hardened callous stops soreness at once, and soon the corn or callous dries up and lifts right off without pain.

He says freezeone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of freezeone will cost very little at any drug store, but will positively remove every hard or soft corn or callous from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have freezeone tell him to order a small bottle for you.

Cincinnati man tells how to shrivel up corns or callouses so they lift off with fingers.

Ouch! ! 2 ! ! This kind of rough talk will be heard less here in town, if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezeone when applied to a tender, aching corn or hardened callous stops soreness at once, and soon the corn or callous dries up and lifts right off without pain.

He says freezeone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of freezeone will cost very little at any drug store, but will positively remove every hard or soft corn or callous from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have freezeone tell him to order a small bottle for you.

The age limit for applicants for voluntary enlistment in the regular army has been raised from 17 to 35, to 18 to 40. These are the ages at which men will be accepted.

Gen. Pershing and staff of 200 have reached France, after a stay of a few days in England. They are preparing the way for the first part of the United States army. 25000 will land in France very soon, it is said.

In every city in the country at nine o'clock Monday, Tuesday and Wednesday nights of this week, all the bells rang out for Liberty Bonds. It was a suggestion made by one of President Wilson's daughters.

Useful food gets into the garbage pail because the housewife in preparing potatoes or other vegetables and fruit, such as apples, cuts off with the skin a considerable percentage of edible material. Careless paring of potatoes may consign to the garbage pail as much as 20 per cent of the edible portion, including outer layers containing valuable mineral substances.

The discovery of an explosive said to be 10,000 times as powerful as dynamite is announced by Dr. Walteoff, Vice President of the American Medical-Pharmaceutical League. The doctor and his son, a Brooklyn chemist, found the substance when experimenting with a substitute for gasoline. The discoverer claims a bomb of the compound dropped from an aeroplane would wreck a large sized city.

The New York World says that "what is going on in Russia is what the Prussia war machine planned also for the United States." It is true, and the offense against the United States is the more grievous, for Prussian militarism filled our land with spies and agitators at a time the nations were at peace. As for Russia not a doubt remains that German propaganda is responsible for many of the most violent acts of the Russian "Reds." These men are in the pay of Germany and are worse enemies of their country than were ever the Romanoffs.—Louisville Evening Post.

The Confederate Veteran Encampment of Memphis, Tennessee, honored Miss Catharine Williamson, aged 12 years, daughter of the Rev. C. H. Williamson and Thurza Burns Williamson, by selecting her as their mascot to go with them and attend the Confederate Reunion at Washington, D. C. Miss Catharine is the grand-daughter of Mr. R. T. Burns, who has had two letters from her since arriving in Washington, D. C. She is delighted with her position and is having a very interesting and instructive time. Among places visited was Mount Vernon.

CONFEDERATE VETERANS.
Washington.—For the first time since the organization of the United Confederate Veterans their annual reunion, the twenty-seventh, was this year held outside the limits of the late Confederate States. The 1917 reunion was held in this city during the week beginning June 4.

Such another parade as that of Thursday the Nation's Capital will never see again. It thrilled and pulsated with patriotism and history from its beginning to its end. There were old boys in blue in it, too, and thousands of young boys in khaki, their faces determinedly turned to some far off battle line in Flanders. But it was the Old Confederates parade, and they made the most of it. They spurned automobiles as if they were a plague. The place for a soldier was in the ranks, on foot, Sir. They walked until they dropped, and many of them did, although the route of the parade was the shortest ever made for them. Then, too, Sir, they didn't want to be picked up by new-fangled auto ambulances if they did drop. No, Sir. They wanted one of those iron-tired, mule-drawn ambulances from Fort Myer and other nearby encampments, which were doing duty. That was the kind of an ambulance which beddled a veteran of "Stonewall" Jackson's Brigade, Sir.

However, there wasn't a death among them—and Washington is glad and proud of that. These Old Boys were not easy to look after, and it kept the army organized system of espionage on them and protection over them working to the maximum of its efficiency. It was plain that these old boys would be boys, and it was an occasion when letting them have their own way, no matter what happened, had to be bowed to. They just would unduly exert themselves in the excitement of their patriotic passions and excitements. Why, if the big parade was halted once it was a hundred times, by some Johnny Reel, thrilled by the band in front or just behind him, holding up the whole marching shelling by executing a double-shuffle and a buck-and-wing right in the middle of the great avenue. And how the crowds did cheer and yell with glee. It seemed that, in front of the President's reviewing stand, the dance desire was strongest. The joyous old clumps just couldn't help it. They pranced and danced by, with hats in hands, and right heartily did the President and Mrs. Wilson laugh at their antics.

Their next year's meeting will be held at Tulsa, Oklahoma.

UNSHAKEN TESTIMONY

Time is the test of truth. And Doan's Kidney Pills have stood the test in Louisa. No Louisa resident who suffers from backache, or annoying urinary ills can remain unconvinced by this two-fold testimony.

J. B. Peters, prop. hardware store, Lock St., Louisa, says: "I was in constant misery whether walking, sitting or bending, on account of my back. When I attempted to rise after sitting, my back felt weak and sharp pains shot through my kidneys. Rheumatic pains seemed to be all over my body, but particularly in my knees, hips and joints. The kidney secretions were irregular in passage and some times bothered me at night. The secretions were unnatural, too, and were scalding in passage. I was languid, discouraged and run down in health. Doan's Kidney Pills did me a lot of good and after taking four boxes, I felt as if I had a new pair of kidneys. All the pains were removed." (Statement given June 23, 1908.)

On December 1, 1916, Mr. Peters said: "Although I have very little trouble with my kidneys now, I do find it necessary to take Doan's Kidney Pills once in awhile. I always get the same good results."

Price, 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Peters has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

NEVER MISSES FUNERAL: 7,000 TO HIS CREDIT.

Wheeling, W. Va., June 12.—Patrick Cahill of this city, claims to be the champion "funeral fan" of the world, with a record of 7,000 funerals to his credit.

Attending funerals is his hobby. They have had a fascination for him since childhood. Today he is 70. For twenty-five years he has lived a retired life, and during that time he has averaged at times, two a day.

"I never miss a funeral, for I have not anything else to do," he said.

Cahill is sufficiently supplied with this world's goods, and he does not have to worry about the high cost of living.

Everything free to Masons; their families and friends. Everyone is going and if you stay home that day you will be lonesome. Reduced railroad rates have been secured and everything is now ready for the celebration.

Callot Classic Posed by an Expert

THIS evening gown, posed by the actress, Helen Raymond, has for fabric panne velvet in a vivid shade of granum pink, with velvet train, tulle skirt and cable bands. Unmistakably the princess line, and the slender hip are favored by Callot. The skirt of the panne velvet is draped in front and at the foot falls in uneven lengths. The train is formed of two full widths of the velvet. It is cut straight at the bottom edge and is hung from the raised waist, falling in deep points.

The tulle scarf matches the velvet in color. It is edged with fur and hangs from the shoulders, falling in cascades down each side of the back.

The man who continually knocks his home town is generally the one who does the least for it and receives his all from it, says a Florida weekly. And he is most surely the one who receives the least respect from the rest of the people of the town.

of Dr. Joplin, the General Secretary of
the Kentucky Sunday School Associa-

TWINS HAVE TROUBLE.

Glasgow, Ky., June 12.—While Orlan
and Lorien, the six-year-old twin boys
of Mr. and Mrs. John Nelson, were
playing in their father's barn, Lorien
fell over a bucket and fractured his
left arm between the elbow and wrist.
When the father heard their screams
he started to their rescue and met them
half way between the house and barn.
Both boys were crying and both hold-
ing their left arms. They cried simulta-
neously, "I broke my arm." The father,
after an examination told the mother
Lorien had broken his arm, where-
upon Orlan asked his mother, "Am I
Lorien or Orlan, mother?"

During the ordeal of reducing the
fracture the little brother who was not
hurt seemed to suffer every pang en-
dured by the other boy and cried and
groaned whenever his brother did and
refused to use his left hand, keeping it
in the same position his brother does.

A SURPRISE WEDDING

The following is from the Ashland

unusual surprise was performed Wed-
nesday evening, June 6, at the parson-
age of the M. E. Church, South, Rev.
Staughter officiating, the contracting
parties being Jas. T. Clark, a promi-
nent attorney of Catlettsburg, and Mrs.
Alice Adkins, widow of Lewis Adkins,
of Zella, Ky. Mr. Clark is a Virginian
by birth, a graduate of the Virginia
Law University who located in Cat-
lettsburg about two years ago and by
his close application to his profession
has demonstrated himself to be a man
of considerable ability and a citizen of
high repute. Mrs. Adkins is a woman
of unusual high personality and busi-
ness qualifications, being possessed of
much of this world's goods.

PAY NOW OR MORE LATER.

Detroit, Mich., June 6.—William G.
McAdoo, Secretary of the Treasury,
said:

"Without exaggeration," he said, "this
country is confronted by the most ter-
rible situation in its history. It cer-
tainly should bring France and Eng-
land to their knees, and should impose
a conqueror's terms on them, seize their
great fleets, release her own and then
add that to all her powerful and in-
ferocious submarines."

In a situation like that, he said, the
United States either would have to
make a humiliating peace and pay an
indemnity of \$100,000,000,000, or else
expel the invaders at a cost ten thou-
sand times as great as the cost of a
successful war now.

"The sooner our enemies learn," he
continued, "that America has billions
of dollars to sacrifice, as well as
millions of lives in the cause of
liberty, the sooner will the war be won
and ended. War means sacrifice, not
only of life, but of property."

"You must submit to reasonable tax-
ation during the war."

TOMMY TO HUNT WORLD FOR GIRL WHO GAVE ROSE.

London, Ont.—Only a tiny cluster of
red cloth flowers, torn impulsively from
a woman's hat and tossed to a soldier
swinging past her automobile to en-
train for overseas, but it passed thro'
the battles of St. Ello and the third
Ypres, and after travelling more than
6,000 miles has been brought safely
back to Canada again by the soldier-
hero who treasured it, through the fire
and suffering of battle, the long, weary
months of his convalescence in French
and English hospitals.

When Private Stanley Snelling, who
returned a few days ago to the Central
Military hospital, at London, Ont., was
leaving for France with the Eighteenth
Western Ontario battalion a little over
two years ago, an unknown woman
tossed him the flowers from her hat.

"Giving it back to me," she called.
"I will not that," he promised as his
battalion moved to the waiting trains
before he had time to speak or furth-
er ascertain her name.

Private Snelling has been twice wound-
ed, the last time, so severely with
machine gun fire that he was invalid-
ed home to Canada. Now he wishes to
meet the girl for whom, like the gallant
knights of old, he carried the little to-
ken.

Announcements published in the lo-
cal newspapers have failed to find a
claimant for the flowers. Perhaps the
fair one no longer resides in London.
Perhaps two years ago she was only a
visitor or tourist here.
But if she is anywhere in America
between Florida and the Yukon terri-
tory, Private Snelling states he is go-
ing to find her and return to her the
flowers as he promised, as soon as he
is able to leave the hospital.

NOTHING CAN SAVE THE EN- EMY FROM COMPLETE DEFEAT.

British Headquarters in France, June
12 (via London).—Although the Ger-
mans continue to splash shells about the
positions won by the British last
week east of Messines Ridge, they have
been no further counter attack.
On the other hand the British, having
thoroughly consolidated the new line
running due north and south, well east
of Gosseltverne, are further securing
their new ground by pushing patrols
well forward. Thus far they have met
with comparatively little resistance
from the enemy, who appears to be
undecided whether to make a further
stand or to fall completely back to his
Warrenton line. The British are press-
ing forward this town.

Most of the artillery firing comes
from long range guns. Seven field guns
were captured late yesterday. Infor-
mation reaching the British indicate
temporary disorganization of the Ger-
man forces, or at least nervousness
regarding their position between the
converging Ypres-Comines canal and
River Lys.

Gen. Haig has issued a special order
of the day congratulating Gen. Plumer
and the entire Second Army which
he commands, and saying that the com-
plete success of their attack last Thurs-
day is "an earnest of the eventual final
victory of the Allied cause." Gen. Haig
emphasizes the fact that the position
assaulted was "one of very great nat-
ural strength, on the defenses of which
the enemy had labored incessantly for
nearly three years," and says the Brit-
ish casualties for a battle of such mag-
nitude were gratifyingly light. The full
effects of the victory cannot be esti-
mated yesterday, but that they will be
very great is certain.

After detailing the advantage which
the Germans had in possessing the
ridge, which gave them fore-knowledge
of time to prepare for the British
attack, Gen. Haig declares that the
capture of Messines shows "nothing
can save the enemy from complete de-
fect, and brave and tenacious as the
German troops are, it is only a ques-
tion how much longer they can endure
repetition of such blows."

The total number of prisoners taken
by the Canadians in their record-break-
ing raid last week was 108, including
four officers.

AN ASHLAND MAN'S DIVE INTO CINCINNATI.

Graceful Annette, with her perfect
36 and one-piece bathing suits, hasn't
a thing on a man who says he is J.
Frank Martin, Ashland, Ky., when it
comes to choosing distinctive costumes
and diving places.

There are, however, great differences
between the two. Annette insists on
wearing a costume and she dives in
water.

Now J. Frank Martin is different.
He does not believe in costumes for
diving other than Nature's, and he in-
sists on diving from second-story win-
dows to cement sidewalks.

Last night this distinct type of man-
hood went to his room in a boarding
house on Miami-av., Cleveland, and began
shouting to attract attention.

Throngs coming from picture shows
gathered in front of the house. The
screaming continued. Presently a form
in Nature's garb appeared at the win-
dow.

The crowds begged him not to jump.
Unmindful of these entreaties he
climbed on the sill before the horri-
fied men and women, poised a moment,
then jumped.

When he struck the cement some one
placed a sheet over him. Dr. O. J.
Wood said the man was uninjured. He
was locked up for safekeeping.—Cin-
cinnati Enquirer.

SHOOTING IN BOYD COUNTY.

John and Frank Branham, brothers,
are in jail in Catlettsburg, charged
with shooting Purl Howell with intent
to kill. It occurred on the public road
on Chadwick creek, Boyd-co.

John Branham was convicted a few
months ago of shooting his wife and
father-in-law and was sent to the peni-
tentiary and afterwards pardoned.

SHERMAN OWES APOLOGY.

General Sherman was wrong, accord-
ing to Father Thomas R. Sherman, a
son of the Civil War hero.

"This war," he declared, "is so bad
that if my father were alive he would
owe an apology to hell."

Father Sherman is doing his bit re-
cruiting for workers for the great farms
of the Northwest.

COVER FACES MURDER CHARGE AT PRESTONSBURG.

John Coyer, 22 years old, private in
Company C, First Kentucky Regiment,
was turned over to Wm. O. H. Stumbo,
and his deputy, W. P. James, of
county, at the State Fair camp, Louis-
ville, Monday, and was taken to Pre-
stonsburg, Ky., where he was wanted on
a charge of murder.

Mrs. Lottie Viers, of Prestonsburg,
took out a warrant against Coyer, al-
leging he killed her daughter, Lula
Viers, 19 years old. The girl's body
was found in the Ohio river at Iron-
ton, O., last week. She had disappear-
ed December 9. Mrs. Viers claims that
Coyer took her daughter away from
home. She charges he is the father of
a child born to the girl three years ago.
Coyer enlisted in the First Regiment in
April.

C. & O. LIBERTY LOAN.

Richmond, Va., June 8.—The Presi-
dent of the Chesapeake & Ohio Rail-
way and Hocking Valley Railway com-
panies, has announced that these com-
panies have subscribed for \$1,000,000 of
Liberty Loan Bonds, and have offered to
each employ the opportunity to sub-
scribe for and purchase one or more of
these bonds in installments, collecting
therefrom for the employee by equal
monthly deductions from payrolls at
the rate of 10 per cent per month. An
employee subscribing for a \$50.00 bond
will authorize the company to deduct
from his pay \$5.00 per month for ten
months. When final deduction is made
he will receive his bond and interest at
the rate of 3 1/2 per cent per annum will
be allowed him on his payments in the
settlement of interest then to be made.
The subscriber may pay additional
amounts or in full at any time.

The circular addressed to employees
points out that, in addition to helping
his country the employee has an oppor-
tunity to secure a good investment
yielding a good return and almost cer-
tain to increase in value.

President Stevens has headed the list
with a subscription of \$5,000 for his
personal account.

NARROW ESCAPE FROM DEATH IN U-BOAT ATTACK.

Gunner On Merchant Ship Which Was
Sunk Tells Experiences.

Maysville, Ky., June 11.—Mr. Hob-
son Parker, who is visiting his brother
here and who was one of the chief
gunners on the Diane, which was sunk
by a German submarine near the coast
of Ireland, says that the bulk of the
submarine far exceeds any of the meas-

urements of the U-boats mentioned in
the papers. Parker signed as a sea-
man aboard the Diane in March last.
On May 2, after the Diane, with others
of a squadron, entered the barred zone,
Parker says he was on watch and
sighted the huge submersible at dawn.
The undersea boat attacked other ships
of the squadron, some of them being
sunk. About noon the Diane, which
the crew thought had escaped, was
struck by a torpedo. The boat began
to sink. Parker says he put on a life
belt and leaped overboard. The offi-
cers and men took to the lifeboats,
which were later sunk by the shells of
the submarine. Only two men beside
himself escaped. After floating twenty-
seven hours Parker says he was
picked up out of the water by an Eng-
lish cruiser, the Zenia.

LEARNS TO WRITE NAME IN TEN MINUTES; ENLISTS.

Harrodsburg, Ky., June 9.—John Hel-
ler, of Mercer-co., wanted to enlist to
fight for his country. He came to Har-
rodsburg and made application to Cap-
tain J. C. Barnes, who has been in
charge of the recruiting station here
for several days. But Heller could
not write his name. Altho he said he
could "lick the Germans," he was phys-
ically fit for a soldier, but his lack of
education prevented him from being
accepted. L. M. Smith heard of his
plight and offered to teach him to write
his name, and Heller was such an
earnest student that in ten minutes he
was back at the recruiting tent able to
sign his own name very creditably.

HOME CIRCLE COLUMN

Consider that your visitors come to see you, and not your pantry.

Let the children have a good time—childhood does not last long. Age is incapable of the fine enthusiasm of youth.

A hovel is often more a home than a palace. If the spirit of congenial friendship links not the hearts of the inmates of a dwelling it is not home.

Times are not near so hard with some men when they want a plug of tobacco as when their wives ask for a pair of shoes.

In a world where God lets the sun shine, the birds sing and the flowers make happy love to each other, man should not be the only saddened object.

Let the path of life start whence it may, and let the way be steep and thorny if it must, there are sunny fields far up the heights for those who have faith and resolution to climb them.

Parents often say, "I live for my children." They should do more than that—they should live with their children, letting their boys and girls feel that their interests are their parents' interests also.

What is needed most of all in bringing up children is example. What they see and hear and take in by absorption in their young years, will, in most cases, become the ruling traits of their lives.

How many hungry hearts there are

In the world hungering for recognition, for a word of praise? The hungriest heart in this world is an unpraised woman whose husband never gives her a word of praise.

A man thinks he knows it all, until a woman begins to enlighten him.

We often wonder why it is so many young men can be seen loafing upon our streets until a late hour of night. Many of them are from our best homes. The fathers of these young men, many of them at least, are numbered among our best citizens. If their cow or their horse or even their favorite dog was away from home after dark they would be out on a search, but their own children can roam the town all night with apparently no effort being made to find them.

When young people go into an engagement for life as carelessly as they go to a picnic, they must expect to pay for their folly with their bitter experience. With thousands, a marriage engagement is a matter of boyish or girlish caprice. If wise marriages are made in heaven, then the hasty, loose selfish sort are the handwork of the devil.

Henry Ward Beecher once said, "I think I am more grateful to God for mother and sisters of the substantial integrity, purity and nobility of womanhood, than for almost anything else in this world. After a long life I can say that I have not lost faith in woman. The longer I live the more I value her as my regard for them. I should look upon it as a fatal canker in my soul if I felt from my confidence in the general trustworthiness, honesty, honor and charity of womanhood. Therefore, when I hear young men, of

men in middle life, or old men, cast gross aspersions on the character of women, I feel as if I were in a den of hissing serpents.

Have you noticed how large a number of persons with whom you stop to have a little chat, speak of the dark blotches of human nature in the lives of someone? We will not except the person of the highest moral standing in the community. Nine out of every ten persons in a ten minutes' talk will bring up the defects in some one's life, and one out of a hundred may possibly stirle you by speaking of the good that may be found in most every individual. There is no life without its defects, neither without its excellencies, and what a different coloring it would give to humanity if the rule was reversed to what it is. And, reader, it rests with you and us to start the reform, and with such a good start as we may be able to give it, we are sure it will be contagious if we persevere. For when neighbors speak naught of ill and only laud the good that is in us we will not be far from that glorious period dominated the millennium.

Don't let all the sunshine in nature become cloudy since you are growing older.

The strength of a nation is in the intelligent and well-ordered homes of the people.

No one is useless in this world who lightens the burdens of it for another.

How much of your success do you owe to your wife? It is only just to own this fact before her day by day. It will make her happy and keep her youthful.

He is a selfish being who having trouble in his trade or calling or profession, always brings his troubles home for the purpose of making everyone else miserable.

LUKE M'LUKE SAYS:

You may not realize it. But you feel yourself oftener than you fool others.

Prayer is all right in its place. But the man who gets up and hushes receives more than the man who remains on his knees.

A girl can talk culture to us all day. But that doesn't keep us from believing that she shames in her sleep.

When you see a woman who is dressed up like a Circus Horse and who is accompanied by a shabby-looking man who resembles a Door Mat, you know who opens the Pay Envelope in that family.

As a mouse is a queer animal. He either wants to hug you and kiss you or else he wants to knock your block off.

You may convince a Princess that her hair will be gray some day. But you can't convince her that some day that dimple will be a wrinkle.

A girl believes that she is worth her weight in gold. But she wouldn't be fat for anything.

You can learn more about a girl by being married to her for ten minutes than you can by being engaged to her for ten years.

Once Upon a Time there was a man who didn't expect too much from his friends. All Fairy Tales begin with once-upon-a-time.

The men who have axes to grind never have any trouble finding suckers to turn the grindstone for them.

There is a silver lining to every cloud. A deaf man can't hear his wife nagging him when she gets mad at him.

It makes a girl made all over when Mother insists upon cooking onions for supper the night her fellow is going to call on her.

THREE YEARS' SAVINGS

Of Herself and Husband Used By Woman To Kindle a Fire.

Alliance, Ohio, May 24.—Mrs. Rosa Caffer wishes she and her husband had invested their three years' savings, \$650, in liberty loan bonds. Last night she placed three \$100 bills, six \$50 and five \$10 bills in a handkerchief under her pillow. To-day she unintentionally gathered up the handkerchief along with some newspapers, and used it to start a furnace fire. Not even the ashes of the currency remained. That is what happens to people who do not deposit their money in bank.

OBITUARY.

Carrie Compton, the daughter of Esq. John Compton and wife, was born January 1, 1893, and departed this life May 23, 1917. The writer was with her a few hours before she passed away. She said she was converted on Monday 21. She told the writer she loved everybody. She talked to most all the family of the future. She wanted them to so live as to meet her in heaven. Oh! the promises they made mean so much. May the good Lord help them to pay the vow. Her last words were "Glory to God" and she fell a sleep in Jesus. Her funeral was preached by Rev. L. M. Copley, assisted by the writer, in the presence of a large concourse of people. Her body was given over into the hands of the Rebeckahs she being a member of that order. They carried the casket to the grave, then the men took charge and bore it to the cemetery where the Rebeckahs performed a beautiful ceremony, and Rev. L. P. Kirk read the last sad rite. R.H.C.

HOW SHALL WE PAY FOR THE WAR?

A Constructive Criticism on the House Revenue Bill.

LOANS BETTER THAN TAXES

Five Reasons Why Excessive Taxes at the Outset of War Are Disadvantageous—Great Britain Example Worthy of Emulation—How the Taxes Should Be Apportioned.

By EDWIN R. A. SELIGMAN,
McVickar Professor of Political Economy, Columbia University.

On May 23, 1917, the House of Representatives passed an act "to provide revenue to defray war expenses and for other purposes." In the original bill as presented by the Committee of Ways and Means, the additional revenue to be derived was estimated at \$1,510,420,000. The amendment to the income tax, which was tacked on to the bill during the discussion in the House, was expected to yield another \$40,000,000 or \$50,000,000.

In discussing the House bill, two problems arise:

I. How much should be raised by taxation?
II. In what manner should this sum be raised?

I. How Much Should Be Raised by Taxation?

How was the figure of \$1,500,000,000 arrived at? The answer is simple. When the Secretary of the Treasury came to estimate the additional war expenses for the year 1917-18, he calculated that they would amount to some \$6,000,000,000, of which \$3,000,000,000 was to be allotted to the allies, and \$3,000,000,000 was to be utilized for the domestic purposes. Thinking that it would be a fair proposition to divide this latter sum between loans and taxes, he concluded that the amount to be raised by taxes was \$1,500,000,000.

There are two extreme theories, each of which may be dismissed with scant courtesy. The one is that all war expenditures should be defrayed by loans, and the other is that all war expenditures should be defrayed by taxes. Each theory is untenable.

It is indeed true that the burdens of the war should be borne by the present rather than the future generation; but this does not mean that they should be borne by this year's taxation.

Meeting all war expenses by taxation makes the taxpayers in one or two years bear the burden of benefits that ought to be distributed at least over a decade within the same generation.

In the second place, when expenditures approach the gigantic sums of present-day warfare, the tax-only policy would require more than the total surplus of social income. Were this absolutely necessary, the ensuing havoc in the economic life of the community would have to be endured. But where the disasters are so great and at the same time so unnecessary, the tax-only policy may be declared impracticable.

Secretary McAdoo had the right instinct and highly commendable courage in deciding that a substantial portion, at least, of the revenues should be derived from taxation. But when he hit upon the plan of 50-50 per cent, that is, of raising one-half of all domestic war expenditures by taxes, the question arises whether he did not go too far.

The relative proportion of loans to taxes is after all a purely business proposition. Not to rely to a large extent on loans at the outset of a war is a mistake.

Disadvantages of Excessive Taxes.

The disadvantages of excessive taxes at the outset of the war are as follows:

1. Excessive taxes on consumption will cause popular resentment.
2. Excessive taxes on industry will disarrange business, damp enthusiasm and restrict the spirit of enterprise at the very time when the opposite is needed.

3. Excessive taxes on incomes will deplete the surplus available for investments and interfere with the placing of the enormous loans which will be necessary in any event.

4. Excessive taxes on wealth will cause a serious diminution of the incomes which are at present largely drawn upon for the support of educational and philanthropic enterprises. Moreover, these sources of support would be dried up precisely at the time when the need would be greatest.

5. Excessive taxation at the outset of the war will reduce the elasticity available for the increasing demands that are soon to come.

Great Britain's Policy.

Take Great Britain as an example. During the first year of the war she increased taxes only slightly, in order to keep industries going at top notch. During the second year she raised by new taxes only 9 per cent. of her war expenditures. During the third year she levied by additional taxes (over and above the pre-war level) only slightly more than 17 per cent. of her war expenses.

If we should attempt to do as much in the first year of the war as Great Britain did in the third year it would suffice to raise by taxation \$1,250,000,000. If, in order to be absolutely on the safe side, it seemed advisable to increase the sum to \$1,500,000,000, this should, in our opinion, be the maximum.

In considering the apportionment of the extraordinary burden of taxes in war times certain scientific principles are definitely established:

How Taxes Should Be Apportioned.

(1) The burden of taxes must be spread as far as possible over the whole community so as to cause each individual to share in the sacrifices according to his ability to pay and according to his share in the Government.

(2) Taxes on consumption, which are necessarily borne by the community at large, should be imposed as far as possible on articles of quasi-luxury rather than on those of necessity.

(3) Excises should be imposed as far as possible upon commodities in the hands of the final consumer rather than upon the articles which serve primarily as raw material for further production.

(4) Taxes upon business should be imposed as far as possible upon net earnings rather than upon gross receipts or capital invested.

(5) Taxes upon income which will necessarily be severe should be both differentiated and graduated. That is, there should be a distinction between earned and unearned incomes and there should be a higher rate upon the latter incomes. It is essential, however, not to make the income rate so excessive as to lead to evasion, administrative difficulties, or to the more fundamental objections which have been urged above.

(6) The excess profits which are due to the war constitute the most obvious and reasonable source of revenue during war times. But the principle upon which these war-profit taxes are laid must be equitable in theory and easily calculable in practice.

The Proposed Income Tax.

The additional income tax as passed by the House runs up to a rate of 60 per cent. This is a sum unheard of in the history of civilized society. It must be remembered that it was only after the first year of the war that Great Britain increased her income tax to the maximum of 34 per cent, and that even now in the fourth year of the war the income tax does not exceed 42 1/2 per cent.

It could easily be shown that a tax with rates on moderate incomes substantially less than in Great Britain, and on the larger incomes about as high, would yield only slightly less than the \$322,000,000 originally estimated in the House bill.

It is to be hoped that the Senate will reduce the total rate on the highest incomes to 34 per cent, or at most to 40 per cent, and that at the same time it will reduce the rate on the smaller incomes derived from personal or professional earnings.

If the war continues we shall have to depend more and more upon the income tax. By imposing excessive rates now we are not only endangering the future, but are inviting all manner of difficulties which even Great Britain has been able to escape.

Conclusion.

The House bill contains other fundamental defects which may be summed up as follows:

(1) It pursues an erroneous principle in imposing retroactive taxes.
(2) It selects an unjust and unworkable criterion for the excess-profits tax.
(3) It proceeds to an unbecoming height in the income tax.
(4) It imposes unwarranted burdens upon the consumption of the community.

(5) It is calculated to throw business into confusion by levying taxes on gross receipts instead of upon commodities.

(6) It fails to make a proper use of stamp taxes.

(7) It follows an unscientific system in its flat rate on imports.

(8) It includes a multiplicity of petty and unwholesome taxes, the vexatiousness of which is out of all proportion to the revenue they produce.

The fundamental lines on which the House bill should be modified are summed up herewith:

(1) The amount of new taxation should be limited to \$1,250,000,000—or at the outset to \$1,500,000,000. To do more than this would be as unwise as it is unnecessary. To do even this would be to do more than has ever been done by any civilized Government in time of stress.

(2) The excess-profits tax based upon a sound system ought to yield about \$300,000,000.

(3) The income-tax schedule ought to be revised with a lowering of the rates on earned incomes below \$10,000, and with an analogous lowering of the rates on the higher incomes, so as not to exceed 34 per cent. A careful calculation shows that an income tax of this kind would yield some \$450,000,000 additional.

(4) The tax on whisky and tobacco ought to remain approximately as it is, with a yield of about \$230,000,000.

These three taxes, together with the stamp tax at even the low rate of the House bill, and with an improved automobile tax, will yield over \$1,250,000,000, which is the amount of money thought desirable.

The above program would be in harmony with an approved scientific system. It will do away with almost all of the complaints that are being urged against the present. It will refrain from taxing the consumption of the people.

It will throw a far heavier burden upon the rich, but will not go to the extremes of confiscation. It will obviate interference with business and will keep unimpaired the social productivity of the community.

It will establish a just balance between loans and taxes and will not succumb to the danger of approaching either the tax-only policy or the loan-only policy. Above all, it will keep an undisturbed elastic margin, which must be more and more heavily drawn upon as the war proceeds.

Most Eminent Medical Authorities Endorse It.

Dr. Eberle and Dr. Braithwaite as well as Dr. Simon—all distinguished authors—agree that whatever may be the disease, the urine seldom fails in furnishing us with a clue to the principles upon which it is to be treated, and accurate knowledge concerning the nature of disease can thus be obtained. If backache, scalding urine or frequent micturition bother or distress you, or if uric acid in the blood has caused rheumatism, gout or sciatica or you suspect kidney or bladder trouble just write Dr. Pierce at the Surgical Institute, Buffalo, N.Y.; send a sample of urine and describe symptoms. You will receive free medical advice after Dr. Pierce's chemist has examined the urine—this will be carefully done without charge, and you will be under no obligation. Dr. Pierce during many years of experimentation has discovered a new remedy which he finds is thirty-seven times more powerful than lithia in removing uric acid from the system. If you are suffering from backache or the pains of rheumatism, go to your best druggist and ask for a 50-cent box of "Anuric" put up by Dr. Pierce. Dr. Pierce's Favorite Prescription for weak women and Dr. Pierce's Golden Medical Discovery for the blood have been favorably known for the past forty years and more. They are standard remedies to-day—as well as Doctor Pierce's Pleasant Pellets for the liver and bowels. You can get a large trial package for 10c. of any one of these remedies by writing Dr. Pierce.

Doctor Pierce's Pellets are unequalled as a Liver Pill. One tiny, Sugar-coated Pellet a Day. Cure Sick Headache, Bilious Headache, Dizziness, Constipation, Indigestion, Bloating Attacks, and all derangements of the Liver, Stomach and Bowels.
